School year: _____

All students in grades Kindergarten through Third Grade must be screened for the screening appropriate to the grade level as specified by Bulletin 1903. With the results of the screening, students who are identified at risk for socio-emotional issues or students who are exhibiting characteristics of Dyslexia or Attention Deficit Hyperactive Disorder should be reviewed by the Academic/Behavior Intervention Team to determine next steps of support for the student.

Because it is imperative that students are identified with potential learning or emotional issues as early as possible, fidelity of implementation of the screenings is crucial to ensure student achievement.

By January 13, 2017, all gray folders must contain a signed parent permission for screening that granted or refused permission for the student to be screened. For any form that has not been returned with a parent signature, documentation of efforts to obtain parental permission should be placed in the gray folders. This documentation may include a list of dates that the permission form was sent home or a phone log documenting that attempts were made to obtain parent permission.

By signing this letter, I acknowledge that I have reviewed all of the gray folders for the students in grades Kindergarten through Third Grade. All appropriate forms, including signed parent permission forms, are in the individual student folders.
