

Student's name _____

Dear Parent/Guardian,

Our school is using *i-Ready Diagnostic & Instruction*, an online, interactive learning environment designed to assess students and then provide individualized instruction based on each student's unique needs. The i-Ready experience builds students' investment in their learning by giving them real-time feedback on their progress in each skill. As students complete each assignment successfully, they earn credits that they can use to play games. *i-Ready Diagnostic & Instruction* also provides opportunities to learn both at school and at home.

The program can be used at home for extra practice. Getting started is easy!

1. For use on a computer, go to **clever.com/in/jppss**
 - You can create a bookmark or favorite for this web address.
 - Adobe Flash Player is required to run this program. If you do not already have it, you will see a link to download Adobe Flash Player.
2. Your child can then log in using the student username and password (below). This is the same username and password used at school.

3.

| | |
|-----------------------|--|
| Y o u r A | Student Username: _____ Student Password: _____ |
|-----------------------|--|

A typical home session may last from 20-25 minutes.

4. It is important your child works without any help while using i-Ready. All of the work your child does at home is recorded and reported to school. This means the teacher can see when help is needed and provide additional instruction at school.
5. ALSO, available on Clever.com/in/jppss is Typing.com. Typing.com is an online typing program to improve typing skills and prepares students for the future with our comprehensive curriculum.

Thank you for helping your child practice Reading & Math!

Sincerely,

Linda Ferraro
