

Help choose the right path for the JPPSS Facilities Master Plan

The Jefferson Parish Public School System will host a series of second round community meetings for attendees to consider which renovation or build options should be included in the final JPPSS Facilities Master Plan. These meetings will be led by educational consulting group MGT, and will include large group voting sessions and small group discussions.

One meeting will be held in each of the nine Jefferson Parish School Board districts. All meetings will be 6:00 pm – 7:00 pm. For a listing of schools in each district, visit [jpschools.org](http://jpschools.org). Participants can attend the meeting in their district or whichever meeting is most convenient.
